Drop in quality of milk supplied by Mother Dairy in Delhi

171. SHRI SURESH PACHOURI: Will the Minister of AGRICULTURE be pleased to refer to answer to Starred Question 300 given in the Rajya Sabha on the 2nd August, 1991 and state:

(a) whether it is a fact that there has been a drop in the quality of milk supplied by Mother Dairy in Delhi in which the original milk fat content of 4 per cent has been lowered to 1.5 per cent even when the price has been increased on several occasions; if so, the reasons therefor; and

(b) what steps Government propose to take to ensure that milk is made available to children, pregnant women and other vulnerable groups in Delhi?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI K. C. LENKA): (a) There has been no drop in quality of milk marked by Mother Dairy, Delhi. However, with effect from 16-4-1991, the Mother Dairy switched over to the supply of Double Toned Milk (DTM) from toned milk, which has 1.5 per cent FAT and 9 per cent SNF as against 3 per cent FAT and 8.5 per cent SNF in Toned Milk. The Mother Dairy decides on the revision of the sale price of milk based on its cost of production and increased costs in inputs.

(b) There is no proposal to specifically cover children, pregnant women etc. in Delhi for the supply of milk. However, the Delhi Milk Scheme is supplying about 20,000 litres per day of Double Toned Milk (Swasth) to poorer sections of the society in resettlement colonies in Delhi.
